

# MV-EX3 V-Plate adapter for SONY PMW-XDCAM EX family

Made in Europe

## Main features:

- Allows usage of standard V-lock batteries directly installed on the camcorder
- Significantly extended runtime of the XDCAM EX through a small investment in power systems based on BLUESHAPE V-lock
- An additional power source is available from the "D-tap" connector installed on the battery adapter plate

**D-Tap connector available**

BV070 (runtime 5:10)\*

BV100 (runtime 7:20)\*

BV140 (runtime 10:30)\*

\* Runtimes shown are based on the declared camera power consumption of 13W
